

## **REMARKS**

Applicants thank the Examiner for the telephone interview granted September 1. During that interview, the above further clarifications in the independent claims were explained to the Examiner and the Examiner agreed that these additions should be made by way of this Supplemental Amendment.

During the interview claim 54 was explained to the Examiner and it was pointed out how that claim relates to Figure 4 where the additions of formatting information correspond to the enrichment discussed and shown in Figure 4 and also how the claim reads on Figure 15.

Gebert was discussed and it was noted that Gebert does not have any additions of document formatting information and particularly no control of such additions certain of the structured elements and not others by first type and second type declarations. The Examiner tentatively agreed that Gebert does not show these items but indicated she would potentially do further prior art searching. Examiner further indicated that she may require more formalized drawings so that the hand lettering is replaced by formalized lettering and also in claim 15 that it be redrawn so that only a single design data set block 62 is shown.

Similar Amendments were made to the other independent claims 69 and 70.

Allowance of the Application is respectfully requested.

The Commissioner is hereby authorized to charge any additional fees which may be required, or to credit any overpayment to account No. 501519.

Respectfully submitted,
